

If this bill is past the united states will no longer be considered a free country because of infringement on the right of speech also is legislator going to pass a bill to prohibit sattelite brodcastors and cable companies from brodcasting the same things that sattelite radio does is there a diffrence no accept for that radio is not using up as much bandwidth as tv does there is no reason whatsoever that the nab 04-160 pettion should be passed or even present before congress as hr-4026
